

Back

Back is a "sliding" stair composed of 10, 11 or 12 treads with a railing on both sides made up of square section balusters connected by a circular section handrail. The treads are in solid beech. Thanks to the wheels fitted to the steel side stringers, the stair can reach a minimum footprint of 40 cm by placing it in its vertical position. The stair's maximum height is 282 cm.

SHADES AND COLOURS

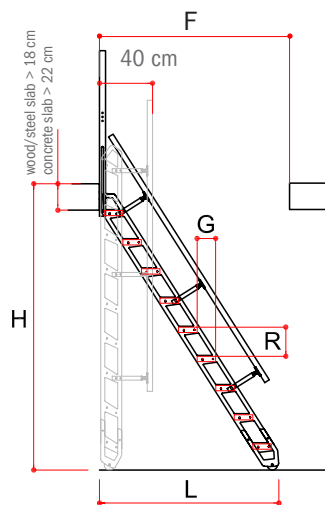

BEECH SHADE: NATURAL

STEEL COLOUR: BLACK RAL 9005

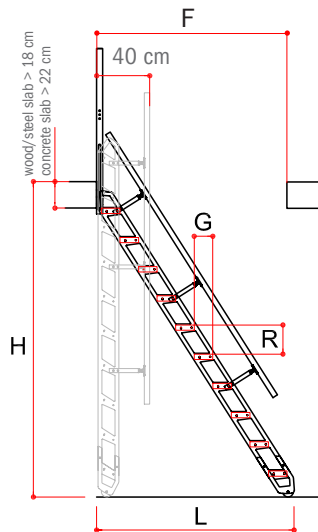

KIT HEIGHTS

10 RISES - **K04160000**

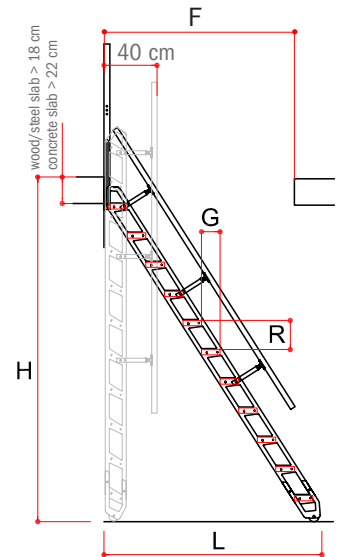

10 rises - 9 treads
